

At the Forefront

SHAFT

SINKERS

The Shaft Sinkers Group is described as a synergistic alliance of distinctly progressive divisions which, combined, have positioned themselves at the forefront, in the mining contracting industry since 1961. The group is a living legend in innovation and efficiency. It is one of the world's most experienced international mining contractors in:

- Shaft sinking and equipping
- Mining contracting
- Underground construction
- Large underground excavations
- Tunnelling
- Design, consulting and draughting
- Engineering, Procurement and Construction Management.

METS

**SHAFT
SINKERS
MINING**

Shaft Sinkers finds itself as the premium quality mining contractor of choice.

The company understands that rapid access to ore bodies is of critical importance to its clients. To this end, it has pioneered some of the most successful innovations worldwide to speed up the mining process, including:

- The process of concurrently sinking and lining vertical shafts
- Creating single lift shafts of well over 2 500 metres
- Achieving industry leading advancements in shaft sinking, stoping and tunnelling.

Shaft Sinkers (Pty) Ltd is owned by AMCO Investments Limited, Black owned company; Mmakau Mining (Pty) Ltd and the Shaft Sinkers management.
